Your life in pictures

Our Portfolio

Viva Photography celebrates the philosophy that every life is important, every body is beautiful and every picture really should be worth a thousand words.

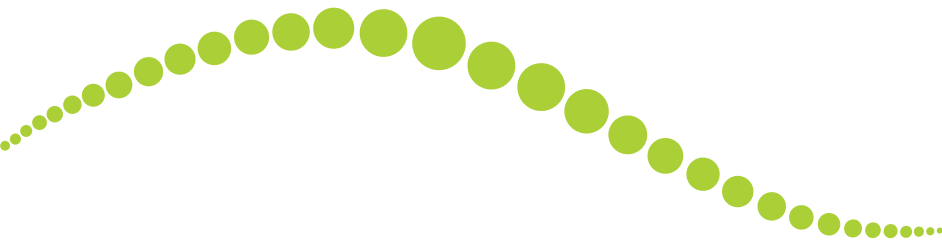

We strive to capture the essence of people at key times in their lives in order to provide a permanent record for themselves, their family and friends.

Every year that passes offers us a new opportunity to take a memory and make it permanent.

Please use our portfolio of images to give you an indication of your Viva experience.

Your new images will be the ultimate way to make your house a home.

Our Photographers understand that each story is unique and strive to capture these special moments in your life.

Your life in pictures

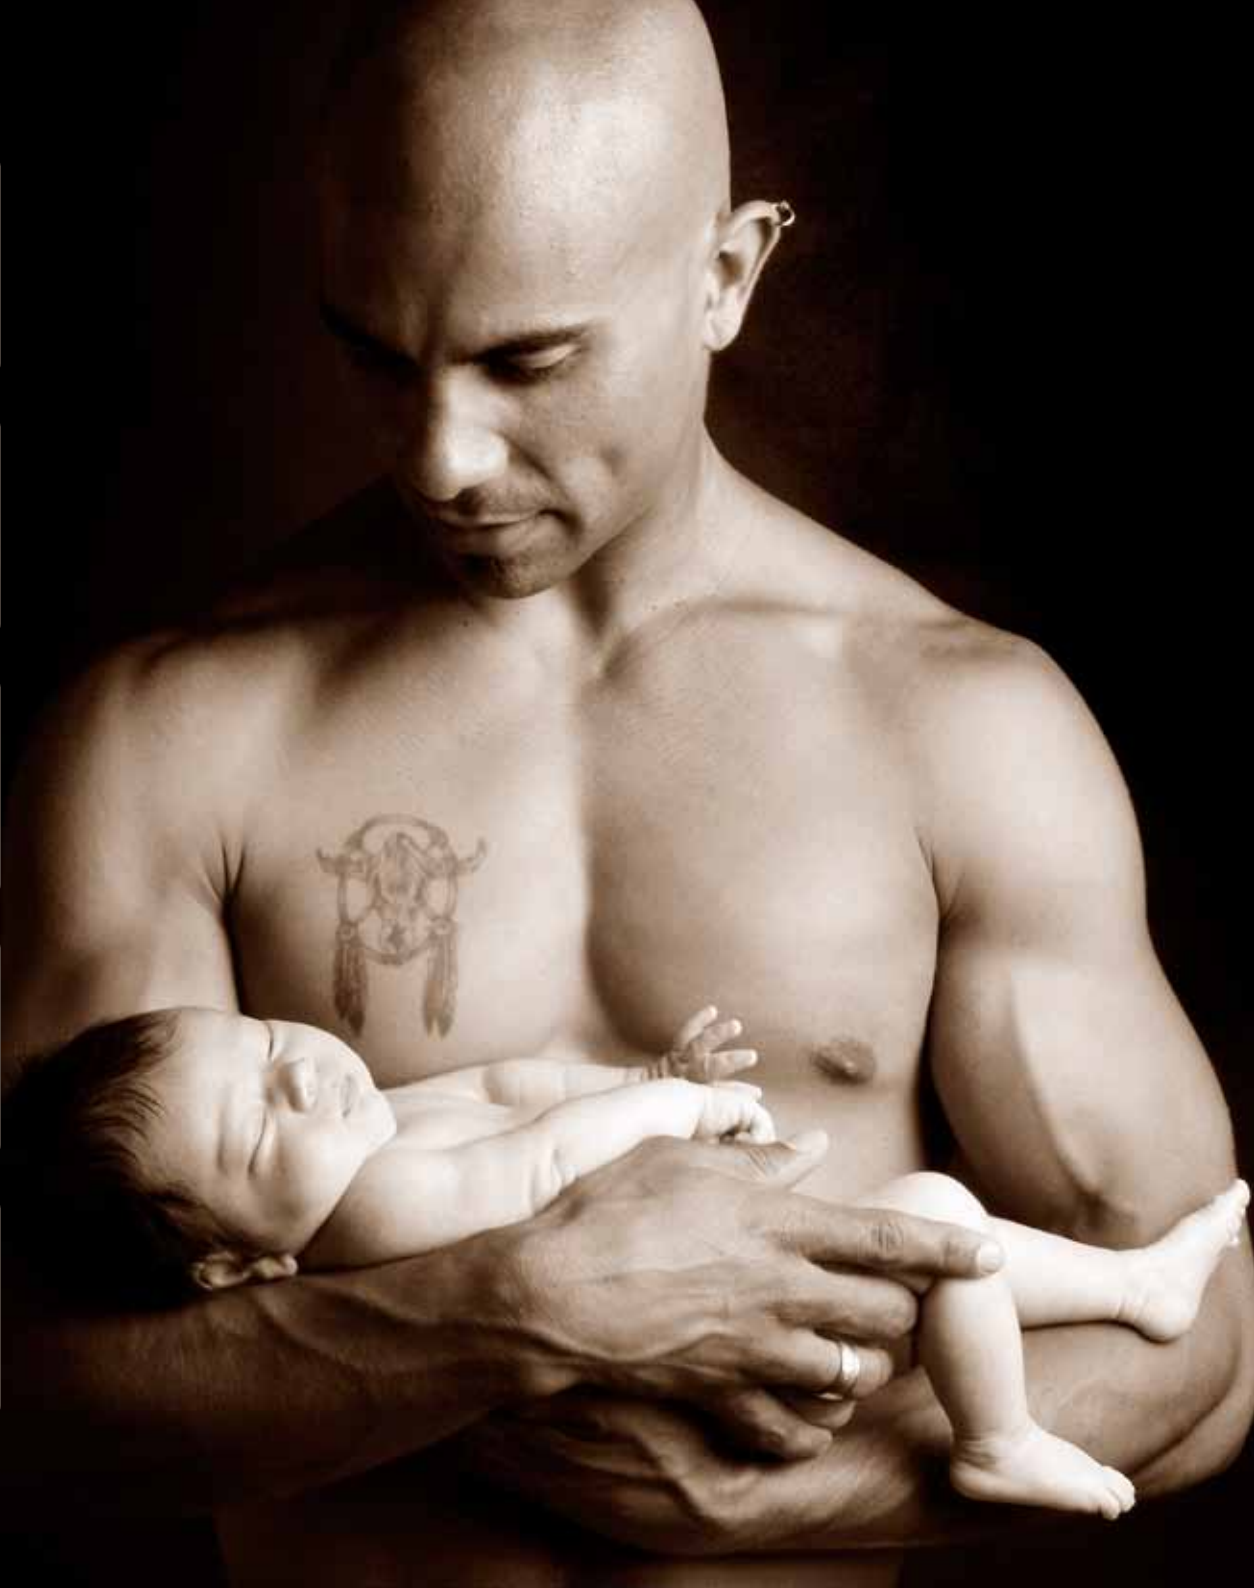

pregnancy

An exciting opportunity exists for a short time, through pregnancy photography, to capture the female form displaying a magical combination of beauty, vulnerability and strength.

The relationship between mother and father and other children should be cherished at this wonderful time and the opportunity to bring the family together.

It is as if by a miracle that we are given a tiny precious life to care for and nurture, more perfect than we could have ever imagined, more captivating than we could have dreamed.

The arrival of a new baby brings with it the opportunity to reflect upon the wonder of life and the fact that every single day is a precious gift that should not be taken for granted. Viva will help you preserve those priceless memories forever.

Children have the wonderful ability to live in the moment, to laugh, play and throw caution to the wind. Imagine being able to look upon those moments every day, smiling at what could have easily been forgotten, being able to share them with your children as they grow and eventually sharing them with grandchildren. Don't miss the moment before it passes.

It is family that makes us the richest of all. Family is everything that we value and the only thing that really matters. A family is the most precious gift we will ever be given.

Each family is so special. It is made up of young and old, unique individuals, that share memories, experiences and history. Get the family together for a special experience that will capture the essence and preserve your memories for years to come.

Nothing is more precious than finding our soul mate, of having that one person to share our most intimate times, of sharing early mornings and late nights, laughter and tears, love and heartache.

It is important as we go through life's journey to take the time to reflect on the things that mean the most to us and especially the people that are our world.

Make a time to celebrate the memory that will be yours forever.

Exquisite imagery of the human body in its most natural form is beautiful, captivating and unique. A nude photograph tells a story without words. It goes beyond the clothing; beneath the flesh; to the person you are within the body. It is an expression of who you really are, not about a perfect body; an exposition of your natural beauty, personality and sensuality with nothing covered and nothing hidden.

Pets are unique individuals that have very special places in our families and our lives. They are our best friends. Pets come in all shapes and sizes, but nothing can deny their place in our hearts and our lives. Make sure you have memories that will last forever, celebrate your unique bond and organise a time for a remarkable photograph with your special friend.

A Wedding Photographer has one of the most exciting opportunities to capture life moments and expressions at one of the greatest family occasions. A wedding is one of the most celebrated events in a couple's life and their family and friends become an integral part of their life. The challenge with wedding photography is that there is no second chance. A once in a lifetime event where the photographer must be able to guarantee success.

Viva understands wedding photography.
