Our clients wanted us to know their thoughts on the Viva Experience.

“ On top of the beautiful photos the whole team at Viva has been lovely in their dealings with our family. ”

My husband and I were only looking to have one or two nice photos taken of our son but in the end we selected more than we expected because of the quality of the shots. I am glad we chose Viva to capture our son because the photos are so natural - not contrived - and really bring out his character. My husband and I are beyond pleased - we are so delighted with the photos.

When they first arrived, I couldn't stop looking at them and would purposely go over to them even when

they weren't hung yet just to admire them. In fact when I pass them now, I still linger in front of them and whoever sees them comments on how amazing they are.

On top of the beautiful photos the whole team at Viva has been lovely in their dealings with our family. From start to finish the team provided us with a lovely experience and we will definitely be back for more photos when our next baby comes along.
